JULY 12, 1907.

If there is any truth in what Orchards says, the organization he worked for may aptly be termed the Western Federation of Murderers.

So great was the demand for the copies of this paper containing the exposure of the McEneaney mine fake, that mining brokers are now paying 50 cents each for them.

There are a large number of subscription accounts due THE GUARDIAN, and subscribers are requested to pay at once. Some of these accounts are long overdue and no further delay can be permitted.

A local telephone company is being organized to build an independent line from Globe to Clifton and Morenci. The present line is said to be kept in such a deplorable condition that the service is practically worthless to patrons being the cause of the new organization. It seems that no attention is being given to the maintenance of the line.

A heavy death and injury list is recorded for the recent Fourth of July throughout the country. The celebrations are fraught with disaster, but we must have them, and it is probable the noise, hilarity and killing will continue indefinitely. It seems to be impossible to prescribe any safeguards to prevent excited citizens from shooting each other, or blowing their own heads off with the deadly giant cracker.

It seems cruel to take the life of any human being, but the sooner Baldwin, the negro murderer, is hung, the sooner will the earth be rid of one more execrable. If ever a murderous and conscienceless wretch lived, it is he. It is said he has made flesh in the jail at Tucson, whereas it would seem that the screams of his victims, the wife and daughter of his employer, whom he brutally murdered, would ring in his ears and kill him with remorse and shame. There will be little mourning and a feeling of relief when Sheriff Anderson jerks him into eternity.

A delegation of Socialists of Graham county visited THE GUARDIAN office last Saturday to protest against our fight upon the Clifton Advocate. As the Advocate began the trouble and has continued it along the most contemptible lines, we fail to see wherein THE GUARDIAN is one whit to blame. In all our statements concerning the Advocate and its management, we have told what we believed to be the truth, and until we are convinced our information was unreliable, we cannot rescind them. On the other hand, the Advocate has repeatedly and shamelessly misrepresented this paper, and refused to concede its error when we published absolute evidence on the subject. If the Socialists of this county are in earnest in wishing to see fair play and justice to all sides of the controversy, they will take the Advocate to task for its barefaced misrepresentations.

The Review of Reviews for July is an exceedingly valuable issue. It contains well written articles on current subjects of interest, including the Idaho trial, the French uprising, the American-Japanese situation, and the presidential situation. No library is complete without the Review of Reviews.

THATCHER

Gomer M. Richards has returned from Mesa City.

Mrs. E. B. Coleman has returned from a pleasant trip to Utah, where she visited with friends whom she had not seen for fifteen years.

Billy Edwards gave a large number of ladies of Thatcher a most enjoyable ride Sunday afternoon. Dave Phillips was permitted to accompany the party as chaperon.

Joe Phillips has accepted a position as assistant at the Thatcher depot. Agent Smith has had so much work he was almost used up and help was an absolute necessity. Thatcher is doing an enormous business in the shipping line.

Fine Garden Spot In Artesian Belt

Hyrum Brinkerhoff has one of the finest gardens in the country over in Artesia. The tract comprises 65 acres, and includes several acres each of cabbage, tomatoes and other similar products. Mr. Brinkerhoff will shortly begin shipping a ton of tomatoes per day, for which there is always a big demand at good prices. A large quantity of cabbage has been eaten by rabbits, which are a great pest in that neighborhood. The tract is a beautiful and well kept spot and proves the fertility and productiveness of the Gila valley when cultivated by such an observing and enterprising agriculturist as Mr. Brinkerhoff. He has a good supply of mountain water for the tract.

Railroad Pipes Penetrate Water

Good progress is being made on the artesian wells being driven by the railroad company three miles south of Thatcher. They are situated on the Echols tract of 40 acres. A heavy flow of water was obtained in one well at 200 feet. This well is now in 300 feet and five inch casing is being used. It is expected that four wells will be driven. A carload of pipe is now on the ground and it is expected that a large reservoir will be built on the premises.

LONG LIVE THE KING
Is the popular cry throughout European countries, while in America, the cry of the present day is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the only sure cure. Guaranteed by all druggists. 50 cents and \$1. Trial bottle free.

Queer Pranks of Recent Big Wind Storm at Solomonville--Many Marriage Licenses Issued

Sheriff Anderson returned from Tucson last Saturday with the negro murderer, Baldwin. Ben Clark bought another \$1.50 hound last Saturday and claims that he made just \$100.

The Solomon Commercial Company is still doing a rattling business, drawing its customers from all parts of the county. A lot of fine buggies were recently received by the company.

H. W. Bishop, the bustling real estate and insurance agent, is digging up a great deal of new business every day. He is insuring a great deal of hay, farmers not being willing to carry their own risk on \$10 hay.

The death of Mrs. W. T. Richards has cast a gloom over the entire community. She was a daughter of Mrs. Place, and died at the residence of her sister, Mrs. W. A. Wilson. She was a resident of Clifton, but had lived in this valley many years, where she won many friends by her kindly disposition. She was an ardent worker in the temperance and similar movements. She leaves a husband, five children and other relatives to mourn her untimely demise.

The big wind storm that struck the valley last Saturday afternoon seemed to be more severe just east of Solomonville than anywhere else. It was a regular twister and did considerable damage. H. W. Bishop's hay shed was completely demolished. About one half of a big stack of hay owned by Luther Green was picked up, tossed and twisted around a few times and finally deposited in an adjoining field. A great many other hay stacks were badly damaged.

The wedding festivities of Graham county seem to have been putting in overtime the past week. Judge Shirley married three couples last Friday as follows: W. A. Ferguson and Jane Sturgill, Zeb Ison and Laura Wells of Thatcher; John Henry Talley of Graham and Sarah Jane Bryce of Bryce. On Saturday he issued a license to Jos. D. Rogers and Jennetta Lamb of Pima.

Justice Tom Smith reports the following marriages from the east end: Mariano Juarez and Ysaura Gerero, Augustino Camano and Virginia Roach, Metcalf; Charles Pinckney and Bessie Kraus, Morenci; John Johnson and May Price, John Joy and Emma Pate, H. F. Kane and Dora Rencher, Andres C. Telles and Alberta Ramirez, Clifton.

Schmitz Goes Up For Five Years

San Francisco, July 8.—The sentencing of Mayor Schmitz to five years in San Quentin for extortion and the commencement and partial completion of the selection of a jury to try Vice President Louis Glass of the Pacific States Telephone company on five or ten charges of bribing supervisors, were the features today in the bribery-graft proceedings.

Honey Industry.

Tom Blake is working through the valley with his honey wagon and is shipping large quantities of honey. The wagon is covered in with netting, and contains a large tank and siphon facilities. Mr. Blake drives up to the apiary, removes his team, and can then work safely, away from the little stingers. The honey industry is becoming an important one in this valley.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED
People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Safford Drug Co.
